

NoGo ZONES

1

Install a Matrix for a record of each journey and peace of mind along the way

2

LIFE IS A JOURNEY

and Matrix rides every kilometre with you. Based on our experience and historical data, simply put - some areas are just more dangerous than others.

Provide us with your current contact details and emergency contact details – for your safety, always ensure these details are up to date

3

Suitably dubbed **'NoGo-Zones'** are areas that experience increased vehicle crime, so it's a little dicey and you'll need to be that little bit more alert.

If your vehicle enters a potentially dangerous area, you can travel with the assurance that Matrix is right by your side

Because Matrix offers safety you can feel, a notification will be sent to you if your vehicle enters any of our listed **NoGo-Zones**. Your MX3 will send your GPS coordinates to us and we'll give you a call to see if you're in any danger – a check-up to make sure everything checks out.

REMEMBER

we're right by your side, so if trouble finds you – we're ready to assist at the touch of your panic button; safety you can feel no matter where the road takes you.

4

A cautionary phone call will be made to your mobile phone. Increase your awareness of your surroundings and have your panic button close by, just in case trouble finds you.

5

Safety you can feel and protection you can rely on
